

Control and Gauge Panel Add-On - 535489

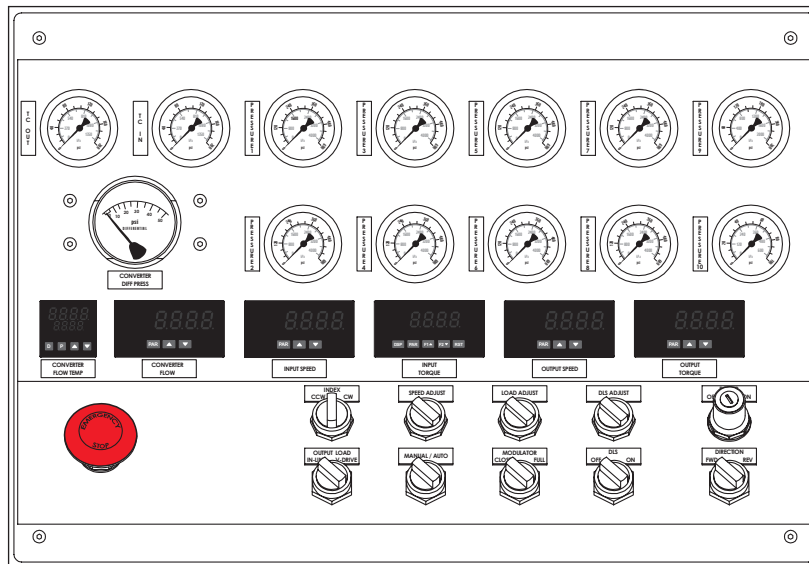

535489 - Control and Gauge Panel Add-On shown

Overview

AIDCO's Control and Gauge Panel add-on is used to monitor and control the AIDCO Model 450E. This package is required if PowerNet TD Data Acquisition and Control System is not purchased. For those customers that want "built in" redundancies, ordering both PowerNet TD and the Control and Gauge Panel add-on offer the greatest flexibility in control and monitoring.

Control and Gauge Panel:

- Includes 13 pressure gauges to be used to test transmission.
- Includes displays for input speed, output speed, input torque, output torque and converter flow.
- Is required if PowerNet-TD is not purchased.
